## OLD STEAM TRAIN

Don Spencer/Allan Caswell

Published by MCA-Gilbey

### *Chorus*

That old steam train's coming down the line,  
Clicketty clack, clicketty clack, gotta be on time.  
Hear the train whistle blow - you gotta let the people know,  
The steam train's coming down the line.

Listen to the rhythm as she thunders down the track.  
People wave as she goes by - the passengers wave back.  
When you hear the steam train coming there's magic in the sound,  
She may be getting old, but she'll never let you down.

### *Chorus*

She used to carry people from the east coast to the west,  
The new trains might go faster, but the steam train is the best.  
Keep that fire burning, she needs a lot of steam,  
She may be getting old, but she's running like a dream.

### *Chorus x 2*

That old steam train's coming down the line,  
That old steam train's coming down the line.
