## OUT THE BACK

Don Spencer/Allan Caswell

Published by MCA-Gilbey

### *Chorus*

There's a lot more of Australia out the back.  
The greater part of every State is off the beaten track.  
Though most of us live on the coast you can't escape the fact  
There's a lot more of Australia out the back!

When it's lunchtime up in Brisbane, in Perth it's breakfast time.  
It might be raining down in Hobart, but Darwin can be fine.  
The cities of Australia are all so far apart,  
And in between's the outback - and that's Australia's heart.

### *Chorus*

Your neighbour in the city is living right next door.  
Or what you call your ceiling could be your neighbour's floor.  
But your neighbour in the outback could live so far away,  
That if you want to visit them - it could take all day!

### *Chorus x 2*

There's a lot more of Australia out the back.  
The greater part of every State is off the beaten track.  
Let's hear it for the Nullabor and the good old Birdsville Track!  
There's a lot more of Australia out the back!

### *Chorus*
